Education: -

BML Munjal University, Gurgaon   September, 2022 – June, 2026

Bachelor of Technology – 7.5 CGPA

Experience: -

Delhivery, Gurgaon   June,2024 – Aug, 2024

Data Analyst

As a Data Analyst I analysed the employee attendance and the vendor rate for different warehouses of the delhivery and prepared a dashboard to visualise the data outcomes and submitted the report to the Internal Audit team to publish the same in the quarter report of the fiscal year 2024-25 (May-July)

DeployH.ai, Hyderabad   April, 2024 – June, 2024

Jr Engineer – Intern

As a Jr Engineer -Intern for DeployH.ai, I worked on several ReactJs projects but some of them were really exciting like User Dashboard, Admin Panel , Employee management Tool.

BML Munjal University, Gurgaon   November, 2023 – February, 2024

Senior Front-End Web Developer

As a senior front-end web developer for PalmBook, a startup created by some experienced folks from my college, my job is to make the app look and work great. PalmBook isn't just any app—it's changing how students connect with administration department. I focus on making it easy to use and nice to look at, so everyone loves using it.

Major Projects: -

Portfolio Website: *HTML, CSS, JavaScript, BootStrap*

Designed and developed a comprehensive portfolio website to showcase expertise in HTML, CSS, JavaScript, BootStrap. Seamlessly integrating elements of design and functionality, the website serves as a dynamic representation of professional capabilities, demonstrating a commitment to innovation and excellence in Front-End Web development.

Tax Calculator Website: *HTML, CSS, JavaScript*

I developed a tax calculator using HTML, CSS, and JavaScript. This tool helps users determine their tax liabilities based on factors like income, deductions, and age. By leveraging these technologies, I crafted a user-friendly interface and precise calculations, demonstrating proficiency in front-end development and problem-solving. This project showcases my skills in web development and financial analysis, making it a standout addition to my portfolio."

To - Do App: *HTML, CSS, JavaScript*

This project demonstrates my ability to design user-friendly interfaces and implement dynamic features such as task creation, deletion, and updating. By leveraging JavaScript, I incorporated interactive elements to enhance user experience, allowing for seamless task management.

Link: - TO-DO

Minor Projects:- Air Quality Index Prediction, Age-Calculator, Phishing Detector Website

Technical Skills: -

Languages: - **C++**, Python, MySQL, HTML, CSS, JavaScript

Tools: - VS Code, Android Studio, QuickSight, Figma, Photoshop, Jupyter Notebook

Technologies/Framework: - GitHub, BootStrap, ExpressJs, ReactJs

Some Course Work: -

- Data Structure and Algorithm
- Operating System
- Database Management System
- Computer Organisation and Architecture
- Web Development
